Introduction

The LINDY Retractable Security Cable helps protect any device with a security slot. The Security Cable acts as an effective deterrent and with its innovative design, provides flexible options.
The barrel lock can also be looped through luggage for example and then attached to the retractable unit to form a secure loop.
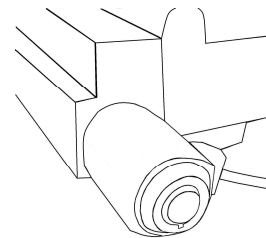

Package Contents

- 1 x LINDY Retractable Security Cable
- 2 x Keys
- 3 x Security slot spacers

Installation

Press the button to retract the cable and pull it to the desired length. Then simply wrap the security cable around any convenient immovable object

Due to the variation in the size of security slots, we have supplied three plastic spacers to attach to the device you intend to secure. Please use a Secure Spacer for the best fit, these are supplied in three sizes: 1.6mm, 0.8mm and 0.4mm.

Remove the adhesive strip and attach the desired spacer to the security lock.

Attach the barrel lock to your computer or TFT security slot.

Lock the security cable in place using the keys provided.
